

22nd BD-STCS Workshop, Hotel Europe, Basel, October 25, 2011

Advanced Cell Culture Techniques for Tissue Engineering and Drug Discovery & Development

09:00 - 10:00 Coffee & Croissants

10:00 - 10:15 *Welcome & Introductions*
Daniel Spatz, BD Biosciences,
Heidelberg, D
daniel_spatz@europe.bd.com

Hansjörg Keller, STCS Swiss Tissue
Culture Society, Basel, CH
hansjoerg.keller@novartis.com

10:15 - 11:00 *High-content screening: opportunities & challenges*
Marjo Goette, Novartis Institutes for BioMedical Research, Basel, CH
marjo.goette@novartis.com

11:00 - 11:45 *Design of 3D microtissues for drug development*
Jens Kelm, InSphero, Zürich, CH
jens.kelm@insphero.com

11:45 - 13:15 Lunch and discussions

13:15 - 14:00 *Genomic evolution of human prostate cancer*
Lukas Bubendorf, Universität Basel, CH
Lukas.Bubendorf@unibas.ch

14:00 - 14:45 *Human GnRH deficiency: Deciphering molecular pathogenesis*
Nelly Pitteloud, Université de Lausanne, CH
nelly.pitteloud@chuv.ch

14:45 - 15:15 Coffee Break

15:15 - 16:00 *Lab-on-a-chip for marker-free monitoring of living cells*
Joachim Wiest, Cellasys GmbH
wiest@cellasys.com

16:00 - 16:45 *From single tissue culture to multi-organ-chips*
Reyk Horland, TU Berlin, D
reyk.horland@tu-berlin.de

16:45 - 17:00 *Final discussion and conclusions*
All speakers and participants

Please send your registration to **Tristan Rogers**
- Participation fee: CHF 75.00
- STCS Members & Students: CHF 55.00
